PRESS RELEASE

The Board of Directors of StackTeck Systems Inc. announces the sale of the operating assets and business of its Walnut, California facility to a private US company for an undisclosed amount.

"This change allows us to focus on our traditional core markets, and to provide our customers with technical and operational excellence", said Randy Yakimishyn, President and CEO of StackTeck. "Following this sale, StackTeck will have increased resources to invest in new initiatives that will ensure our continued growth."

StackTeck is a leading provider of sophisticated integrated plastic tooling solutions for the injection molding industry. StackTeck produces plastic injection molds for caps, closures, medical, thin-wall packaging, as well as system integrations, In Mold Labeling systems and mold bases.
